

Accessibility Plan

Introduction

John Chilton School is a community special school for pupils aged 4-19 years with moderate to severe learning difficulties as a primary need or as a dual diagnosis to their medical or physical needs. In addition, many pupils have sensory impairments and/or social, emotional and mental health difficulties. All pupils have an Education, Health and Care Plan (EHCP), except a few pupils who are on an assessment placement awaiting their HCP.

John Chilton School is accessible, inclusive and has close links to the local community. It is a school where diversity is celebrated and prejudice challenged; British Values and Spiritual, Moral, Social and Cultural Education alongside and strong partnerships are intrinsic to daily life at school.

The curriculum provides challenging and stimulating learning experiences, with realistic yet aspirational expectations of standards, progress and achievement for all.

There are currently 127 planned places with 128 pupils on roll in school including a 9 place 6th form. The majority of pupils come from the London Borough of Ealing with 20% of pupils coming from surrounding boroughs. The school has a higher than national average percentage of pupils from ethnic minorities and those in receipt of pupil premium funding.

We believe that this Accessibility Plan is compliant with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan over a 3 year period.

Vision and Aims:

At John Chilton School, we strive for the development of confident, motivated and independent learners in a sociable, safe and accessible environment; supported by communication and engagement between home, school and partnerships.

John Chilton School will enable pupils to:

- leave the school with the skills, abilities, potential and confidence to meet the challenge of adult life in a fast changing world;
- gain independence skills including, travel, community and cooking skills wherever possible;
- understand their disability, cope with the emotional stresses often associated with disability and be empowered with the skills, knowledge and attitude to take responsibility for managing their disability into adult life;
- develop lively, enquiring minds;
- communicate effectively and confidently;
- use the internet safely and with purpose;
- develop positive attitudes towards healthy lifestyles, promoting activity, creativity and competition through sport and leisure;

develop an awareness and appreciation of art, music and the environment.

At John Chilton School we aim to effect a positive change in the lives of children and young people with special educational needs in the area; increasing the confidence and skills of all those who are involved in their lives through outreach, professional development and support.

Access and School Policy and Procedures

We adhere to Equality Act of 2010 throughout all our policies and practice to ensure pupils access learning and the school environment.

Access to the Curriculum

The John Chilton School Curriculum is designed to meet the varied needs of our pupils. It differentiates the National Curriculum in ways that are meaningful and appropriate for all; ensuring all pupils can access activities that we offer and adaptations to equipment and activities are made to fulfil this aim. For pupils to access the curriculum lessons are highly differentiated and take account of individual learning difficulties. Priority is placed on pupil participation, as independently as is possible. Adults are clear about the learning objectives of the lesson, class and individuals. Adults know how to move the pupils learning on and provide graded prompting and challenge to enable them to succeed.

Good communication is supported by the use of signing, symbols and low and high tech communication aids (Alternative and Augmentative Communication (AAC) devices) overseen by our specialist team and SLT and assessment at specialist centre for communication and technology is used when appropriate. All pupils have access to appropriate computer technology. Speech and Language Therapists and Occupational Therapists work as integral partners in developing appropriate programmes and resources for individual pupils.

The physical and medical needs of our pupils are met by teaching and learning staff, medical professionals, therapy liaison assistants and therapists including Speech and language, occupational and physiotherapists. We use adapted curriculum materials and sensory approaches for pupils' sensory impairments. Both the Teacher Advisory Service for hearing and visual impairment visit regularly to help us ensure pupils can access learning materials and experiences.

The school has a specialist SEMH team led by the Learning Mentor who provide interventions to individuals and small groups, including daily nurture classes.

The school runs a Forest School onsite and at the local Academy Fields; activities and resources are fully accessible.

Our minibuses are designed to take wheel chairs to ensure no pupil misses out on school activities that take place off site. As a school we encourage independence in our pupils and strive to ensure that they experience full and rewarding lives.

The school will continue to seek and follow the advice of LA services, such as specialist teacher advisers and SEN inspector/advisors, and of appropriate health professionals to ensure barriers to learning are reduced and enable pupils to reach their full potential.

Access to the School Environment

The building was purpose built in 2005 with good facilities for a variety of needs. The school is fully accessible for all pupils, staff and visitors. The school has a fully accessible hydrotherapy pool, specialist therapy rooms, large music room and adapted cookery rooms. The outdoor environment is also fully accessible.

The school has adapted the outdoor learning and leisure spaces, including allotments and provides an environment that enables all pupils to be more independent in their free time.

From October 2020 there will be a satellite site for Key Stage 2 pupils. This is fully accessible and also provides a therapy room, sensory room, accessible cookery room and hall space.

Access to Information

All information issued by the school aims to be user friendly. The school information brochure, curriculum booklets, newsletters and fliers incorporate photographs and symbols to assist in understanding content. Makaton signing and symbols (InPrint3) are used throughout the school to support the pupils' communication, reading and understanding. Parents and supporting professionals take part in signing workshops led by school staff qualified as Makaton trainers.

The school website is fully accessible and contains photos, symbols and information for parents and members of the school and wider communities.

The school has a part time Family Worker who liaises closely with parents and families to support their engagement in school and access to forms and services.

For a pupil with a visual and hearing impairment we receive support from Ealing SENSS Team.

The school will make itself aware of local services, including those provided through the LA, for providing information in alternative formats when required or requested.

School Access Planning

- The lift in the John Chilton School reception area is being converted to an evacuation safe lift to support emergency evacuations
