

Coronavirus (COVID-19) catch-up premium 2020-21

The government has announced £1 billion of funding to support children and young people to catch up. This includes a one-off universal £650 million catch-up premium for the 2020 to 2021 academic year to ensure that schools have the support they need to help all pupils make up for lost teaching time.

The purpose of this funding is to support pupils to catch up for lost learning so schools can meet the curriculum expectations for the next academic year.

It is up to the school to decide the best way to use the funding, using programmes and approaches that are known to be effective for whoever needs it. The school receives the funding in three tranches over two financial years.
